

Dr Adaeze C. Ayuk obtained her undergraduate medical education at the University of Nigeria Enugu Campus. In 1989 she did her exchange training at the Respiratory firm of the St. Thomas Hospital (Guys and St Thomas) London. She was an honorary research fellow at the Queen Mary University/Barts and the London Hospital, in 2009. She is a fellow of the National Postgraduate Medical college of Nigeria - Faculty of Pediatrics. She further trained as a sub specialist in Pediatric pulmonology in 2011 at the Red Cross Children Hospital University of Cape Town South Africa. She did her Masters in Pediatric Pulmonology at the University of Cape Town with distinction in her Masters programme in 2018. Adaeze has been involved in several researches within her locality in which she has served both as co and principal investigator. She has won several awards and grants. She won the 2011 American Thoracic Society (ATS) small grant award to study spirometric reference range in children in South east Nigeria. She also served as the Coordinating Principal investigator for Enugu site for the GSK sponsored Asthma Insight and Reality (AIRNIG) Survey. She won the prestigious young investigators award at the Conference of International Pediatric Pulmonologist (CIPP) conference in Bangkok Thailand in July 2012. She is the Nigerian representative on the board of international pediatric pulmonologists (CIPP) and a member of faculty of the Pan African thoracic society. She is currently an associate faculty at the MECOR research courses. She is the current examination officer of the Institute of Maternal and child health (IMCH) of the University of Nigeria Nsukka. She has served as speaker at various national and international conferences. She has over 45 peer-reviewed scientific publications and serves on editorial board of highly respected journals. She is an astute clinician and a trainer of trainers. She is the founder and executive officer of the Little lung Africa Limited, a specialized respiratory center in Enugu Nigeria, that cares for the whole man. She currently works as a consultant pediatrician in the pulmonology firm of the University of Nigeria Teaching Hospital Enugu Nigeria and as a Senior lecturer in the College of medicine of the same university.
